MBA of Florida offers an option to include your company membership dues for all chapters when paying your state dues at a reduced cost of \$700. *This amount is in addition to your state annual dues and will provide membership to the chapters for the entire fiscal year (July—June.)*

To take advantage of this option, you will need to pay your state dues, and the \$700 bundled chapter dues by June 30.

This purpose of this option is to provide MBA of Florida state member companies that are involved in more than one local chapter to join all chapters at a reduced cost and is designed to save these members money and redundant expense requisitions.
